

**CORE COMPETENCIES**

- **AI & agents on Azure** — Azure OpenAI and Microsoft Foundry solutions: retrieval over agency documents, task agents with auditable outputs, document intelligence, vector search (NAICS 541511/541512 · PSC DA01)
- **Microsoft 365 Copilot readiness** — Purview data governance, oversharing remediation, staged rollout and measured adoption across GCC environments
- **Dynamics 365 & Power Platform** — Dataverse solutions as code, Power Apps, automation, center-of-excellence governance and full ALM
- **Data platforms** — Microsoft Fabric lakehouse, Power BI, governed pipelines with catalogs, lineage and quality rules
- **Secure cloud foundations** — Azure landing zones in Bicep, managed-identity zero-secret architecture, monitoring, cost guardrails
- **Program & delivery governance** — PMO for multi-party programs and federal cooperative agreements; Data Management and Sharing Plans

DIFFERENTIATORS

- Senior-led, on-demand specialist workforce — scales from advisory to multi-disciplinary delivery without fixed overhead
- AI governance to current policy by name: NIST AI RMF with TEVV; OMB M-25-21 high-impact-AI practices; M-25-22 commitments — no training on government data, data and model portability, anti-lock-in knowledge transfer
- Everything as code: infrastructure, schema, security roles — repeatable, auditable, transferable
- Validated-environment heritage (21 CFR Part 11): audit trails, controlled access, data integrity as defaults
- Fixed-scope fast starts priced inside micro-purchase (\$15K) and simplified-acquisition (\$350K) thresholds

PAST PERFORMANCE (REFERENCES ON REQUEST)

Fortune 50 Energy, Oil & Gas — portfolio management: Power Platform PPM; **40%** fewer compliance exceptions, **30%** faster delivery schedules, 20 hrs/month returned from reporting.

Global pharmaceutical — compliant e-signatures: validated to 21 CFR Part 11 across 37 sites, 2M+ pages digitized; signature cycles **8 days → 1**.

US municipal water sector supplier: Dataverse/Power Apps pricing platform; ~28 historical offers across ~14 states into regression pricing models (R^2 up to 0.999 on historical offer data); one-click proposals with full audit trail.

KEY PERSONNEL / ADVISORY ROLES

University of Illinois Net-Zero Center of Excellence: our principal, Jakub Marciniak, serves as advisor for AI and technology (data governance, MLOps, digital-twin decision support, AI-workflow cybersecurity) — a key-personnel advisory role held by the principal, not firm past performance on any solicitation.

Microsoft Azure Solutions Architect Expert · Azure AI Engineer Associate · Azure Data Engineer Associate · Dynamics 365 Field Service Specialist · PMP · PRINCE2 · ITIL v3 · PMD Pro

COMPLIANCE POSTURE — STATED PRECISELY

We deliver on FedRAMP-authorized platforms (Azure Government, Microsoft 365 GCC/GCC High). We support ATO work and build to NIST-aligned, zero-trust patterns; we do not claim authorizations we do not hold. Section 508/WCAG conformant deliverables; VPAT/ACR furnished.
